# Student Team Weekly Report – One Page Template ( To be Submitted every Thursday 10.00PM)

## PROJECT/FEATURE

Canteen Order Management System
-Database Design

## TEAM & MENTOR

Team ID

-Rudragouda patil

## WEEK TEAM/LEADER

07-08-2026
Om Doshi

## WORK COMPLETED

- Created MySQL database with 6 tables.
- Added Primary Keys and Foreign Keys.
- Created and checked the ER Diagram in MySQL Workbench.
- Tested table relationships using sample data
- **Evidence:** ER Diagram + SQL files.

## CHALLENGES/RISKS

- Understanding table relationships was challenging.
- Some requirements may change when new modules are given.
- Databases may need small changes in the future.

## HELP NEEDED

- Need confirmation from the mentor that the current database design is suitable for the upcoming modules.

## INTEGRATION AND COLLABORATION

- Database is prepared for **HTML + Servlet** .
- SQL files and ER Diagram are shared with the team.
- Databases can be used by other project modules.

## COMMON KPI EVIDENCES

- Database schema completed (6 normalized tables)
- ER Diagram validated
- Primary & Foreign Keys implemented
- SQL scripts executed successfully
- Database ready for Java Servlet integration
- Design supports role-based access and future modules

## NEXT WEEK COMMITMENTS

- Check databases with new requirements.
- Make required database changes.
- Connect MySQL with Java using JDBC.
- Start User Module backend.

## MENTOR RESPONSE

- **Decision:** _____
- **Owner:** _____
- **Target Date:** _____
