Student Team Weekly Report – One Page Template (To be Submitted every Thursday 10.00PM)

PROJECT/FEATURE

Canteen Order Management System

-Database Design

TEAM & MENTOR

Team ID

-Rudragouda patil

WEEK TEAM/LEADER

13-08-2026

Trupti Lohakare

WORK COMPLETED

- Created Billing & Payment database tables.
- Added **Payments, Refunds & Invoices** tables.
- Added payment status and transaction details.
- Added invoice, tax, discount and total fields.
- Added indexes for order and payment tracking.
- Tested SQL scripts successfully.

CHALLENGES/RISKS

- Managing payment and refund details.
- Maintaining billing data consistency.
- Handling different payment statuses.
- Linking billing data with existing orders.

HELP NEEDED

-Mentor confirmation on database design

— Guidance for upcoming backend integration

INTEGRATION AND COLLABORATION

- Database is prepared for **Java Servlet/HTML,CSS,JS + JDBC**.
- Database ready for backend integration
- SQL shared with team
- Schema supports upcoming modules

COMMON KPI EVIDENCES

- **4 billing tables created**
- Payment and refund tracking implemented.
- Invoice and settlement structure added.
- Indexes added for order/payment tracking.
- SQL scripts executed successfully.
- Database ready for backend integration.

NEXT WEEK COMMITMENTS

- Connect billing tables with existing orders.
- Test payment and refund operations.
- Implement invoice generation.
- Start Java/JDBC backend integration.
-

MENTOR RESPONSE

- **Decision:** _____
- **Owner:** _____
- **Target Date:** _____

Note: Leader Submits; all four members view and actions, confirm accuracy before submission
